	Examiner Michelle Estrada	Art Unit 2823	

-- Th MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: in page 2, line 18, the blank must be filled with the serial number of the patent application.

Appropriate correction is required.

Claim Objections

Claims 4, 11 and 16 are objected to because of the following informalities: in line 2 of each one, it appears that "N₂Ogas" should be replaced with --N₂O gas--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 2, 6-9, 13 and 14 rejected under 35 U.S.C. 102(a) as being anticipated by Li et al. (2004/0038540).

With respect to claim 1 and 8, Li et al. disclose applying an organic compound (70) to said IC structure, said organic compound configured to occupy said via (62) and

a surface of said IC; feeding a nitrous oxide gas into a reactor (fig. 2 and paragraph [0028]); generating a plasma in said reactor (paragraph [0031]); and removing a portion of said organic compound so that said organic plug (72) occupies said via.

With respect to claim 2 and 9, Li et al. disclose wherein said organic compound is an ARC coating (claim 6).

With respect to claim 6 and 13, Li et al. disclose wherein said method for generating said organic plug is applied during one of plurality of steps performed during a dual damascene (Paragraph [0007]).

With respect to claim 7 and 14, Li et al. disclose wherein said silicon containing dielectric material consists of organosilicate glass (OSG) (claim 6).

Allowable Subject Matter

Claims 3-5 and 10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 15 and 17-19 are allowed.

The following is an examiner's statement of reasons for allowance: there is no disclosure in the prior art of applying a bottom antireflecting coating (BARC) to a IC structure; feeding a N₂O gas into the reactor and generating a plasma to remove a portion of the BARC layer to generate an organic plug within a via.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michelle Estrada whose telephone number is 571-272-1858. The examiner can normally be reached on Monday through Friday.
